

*Paramount Decking: Brownstone*

New Paramount Decking is beautiful, durable polymer decking at its finest! Paramount combines all the advantages of cellular decking with a highly resilient surface for lasting durability. This strong surface is bonded to the core to create a hard-wearing deck board with premium, realistic wood looks that last. Available in five rich color options, solid and multi-chromatic, Paramount is also available in square edge and grooved edge boards. Grooved edge boards installed with Phantom® Hidden Fasteners provide a fastener-free surface and a deck that is smooth underfoot. Paramount Decking is backed by a lifetime limited warranty.
