Fiberglass and Legacy™
Woodgrain Textured
Steel Entry Systems.*

Heritage™ Fiberglass and Legacy™ Woodgrain Textured Steel Entry Systems

Your entryway will come alive with a ProVia entry system finished in one of our exquisite stain colors. Experienced craftsmen will carefully hand-apply stain to your fiberglass or woodgrain textured steel door, bringing out the subtle color variations that you would expect to see in a wood door. Once the stain has been oven cured, your door will receive an ultraviolet protective clearcoat to combat the elements. The end result will be an entry system that beautifully accentuates your home.

- *Hand-applied at our factory*
- *Oven-cured for lasting durability*

**Heritage™
Fiberglass**

**Legacy™ 20-gauge
Woodgrain Textured Steel**

**Legacy™ 22-gauge
Woodgrain Textured Steel**

Photos above are intended to show the variations in woodgrain texture and pattern. Swatches below are not intended for final color selection. Ask to see a Stain Selector for accurate color representation.
